Einstein and the Ether

Ludwik Kostro

Einstein and the Ether Ludwik Kostro

Although Einstein is widely credited with abolishing the ether concept, he actually introduced a new relativistic ether in 1916, developing the idea in his later works. This book relates the story of Einstein and the rebirth of the ether, demonstrating how Einstein came to reject the 19th century ether. It details three relativistic ether models developed by Einstein and Einstein's treatment of spacetime as a material entity-a "new ether"

From reader reviews:

Robert Lindsey:

Have you spare time for a day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a wander, shopping, or went to the actual Mall. How about open or even read a book called Einstein and the Ether? Maybe it is to be best activity for you. You realize beside you can spend your time with the favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have other opinion?

Daniel Pitts:

Often the book Einstein and the Ether has a lot associated with on it. So when you read this book you can get a lot of help. The book was authored by the very famous author. The writer makes some research previous to write this book. This book very easy to read you can get the point easily after reading this article book.

Glenda Rogers:

This Einstein and the Ether is great reserve for you because the content which is full of information for you who have always deal with world and get to make decision every minute. This particular book reveal it information accurately using great coordinate word or we can declare no rambling sentences inside. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but challenging core information with lovely delivering sentences. Having Einstein and the Ether in your hand like finding the world in your arm, details in it is not ridiculous 1. We can say that no guide that offer you world within ten or fifteen moment right but this publication already do that. So , this is good reading book. Heya Mr. and Mrs. occupied do you still doubt that?

Fred Nelson:

Many people spending their time period by playing outside together with friends, fun activity along with family or just watching TV all day every day. You can have new activity to spend your whole day by examining a book. Ugh, think reading a book can definitely hard because you have to bring the book everywhere? It alright you can have the e-book, getting everywhere you want in your Cell phone. Like Einstein and the Ether which is getting the e-book version. So , why not try out this book? Let's notice.
