## **Hostile Takeover** Brandon S Stec

Things were great. Things were grand. Things were wonderful. Callan Wyss thought he had the life he'd dreamed about... He had a cool job, plenty of money, and was still young enough to enjoy it. His life was consumed by his dependence on technology and until the disastrous day when all the technology suddenly shut down, he never would have imagined the treachery and conspiracy that surrounded him. With help from his younger brother, Nathan, and friends, Callan gets thrust into a life or death struggle to restore power to the entire country before things get any worse. Callan and his companions must travel together without any assistance from the advanced technology they were so used to and throughout their travels the conspiracy takes shape. An enthralling tale built to keep the reader guessing and hoping for the best. This breakthrough novel challenges its characters and readers to come out from behind their devices and fight for what they care about most. It is surely an exciting ride.
