" 'Tis..." Alto Griffin

"TIS..." is Old English for "It Is..." followed by an ellipsis expressing omitted material; thus, it leaves open at the end for what follows in direct address or on one's own mind, be it controversial militancy on the part of the author per essay/work for his kindred spirits or political and social orations evoking communion with some collective humanity's soul. - or even comments or rebuttals on the part of the reader's. This collection of his essays and letters with dates was intended originally for enlightenment of specific magazines, organizations, and newspapers to induce others to think a bit more; to see clearly another regional view of our world, concerns, and imperfections as all were and are; and to cause or induce a change in the land or body-politics. These letters and essays to editors or groups took place between April 1997 and October 2001. 'Tis (or "Itis") like a drop of water given time - each L.T.E. - which reduces the hardest stone (or mind) under its persistent and accumulated drip, upsetting tightly held bonds duly set by chance or nature and time. It was Old English that brought a great deal of us to these distant shores, leaving its marks quite well in the colloquial slang or tortured language and accents of slaves and commoners and their descendants. As a whole, "TIS..." can be a treatise of a pious and idolatrous nature of mankind, given embedded traumas as memories reproducing pedagogical desires and disdains force-fed years ago.
