Just minor students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that reading through is not important, boring and also can't see colorful images on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country.
