This book is about living off the grid. Most people in the industrialized world may think it is just about putting solar panels on the roof of your home or buildings. Others fear that it is turning back the clock to “rough it” without any electricity or water supplies, out in the wild. Still others wonder if it doesn’t mean dropping off the radar in all ways so that no one can find you ever again! It is all of this – but so much more!

We’ll show you a wide range of ways that anyone can call themselves an Off Gridder, and how to do it at little to no cost – as well as to spend your entire savings doing so!
