Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking) Jean-Philippe Vasseur M.S. in Computer Science, Mario Pickavet, Piet Demeester

Network Recovery is the first book to provide detailed information on protecting and restoring communication networks, and it sets a sky-high standard for any that may follow. Inside, you'll learn specific techniques that work at each layer of the networking hierarchy-including optical, SONET-SDH, IP, and MPLS-as well as multi-layer escalation strategies that offer the highest level of protection. The authors begin with an incisive introduction to the issues that define the field of network protection and restoration, and as the book progresses they explain everything you need to know about the relevant protocols, providing theoretical analyses wherever appropriate. If you work for a network-dependent organization, large or small, you'll want to keep Network Recovery within reach at all times.

* Shows you how to implement protection and recovery techniques that will save your organization time and money.
* Documents techniques for the optical, SONET-SDH, IP, and MPLS layers, as well as multi-layer escalation strategies.
* Shows you how to evaluate these techniques in relation to one another, so you can develop an optimal network recovery design.
* Provides industry examples and simulation results.
* Delves into the inner workings of relevant protocols and offers theoretical analyses wherever this information contributes to your practical knowledge.

From reader reviews:

Rolanda Parker:

Nowadays reading books be a little more than want or need but also work as a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge your information inside the book that improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want get more knowledge just go with schooling books but if you want truly feel happy read one together with theme for entertaining for instance comic or novel. Often the Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking) is kind of guide which is giving the reader unpredictable experience.

Manuel Coury:

Hey guys, do you wants to finds a new book to read? May be the book with the headline Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking) suitable to you? Often the book was written by well-known writer in this era. Often the book untitled Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking)is the main one of several books in which everyone read now. That book was inspired a number of people in the world. When you read this book you will enter the new dimension that you ever know previous to. The author explained their plan in the simple way, and so all of people can easily to recognise the core of this guide. This book will give you a wide range of information about this world now. So you can see the represented of the world in this book.

Ward Beaver:

A lot of people always spent all their free time to vacation or go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent they free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity here is look different you can read the book. It is really fun for you. If you enjoy the book you read you can spent all day long to reading a e-book. The book Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking) it is extremely good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. Should you did not have enough space to create this book you can buy the e-book. You can m0ore quickly to read this book from a smart phone. The price is not too costly but this book has high quality.

Elizabeth Acker:

Playing with family in a very park, coming to see the coastal world or hanging out with close friends is thing that usually you could have done when you have spare time, subsequently why you don't try factor that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller

coaster you have been ride on and with addition of knowledge. Even you love Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS (The Morgan Kaufmann Series in Networking), you are able to enjoy both. It is fine combination right, you still would like to miss it? What kind of hang type is it? Oh can happen its mind hangout guys. What? Still don't buy it, oh come on its identified as reading friends.
