The year was 2014. We had cured cancer. We had beat the common cold. But in doing so we created something new, something terrible that no one could stop. The infection spread, virus blocks taking over bodies and minds with one, unstoppable command: FEED.

Now, twenty years after the Rising, Georgia and Shaun Mason are on the trail of the biggest story of their lives-the dark conspiracy behind the infected. The truth will out, even if it kills them.

FEED is the electrifying and critically acclaimed novel of a world a half-step from our own---a novel of geeks, zombies, politics and social media.
