Brian Scaddan's guides to the IEE Wiring Regulations have established themselves as an industry standard. This new edition will be an essential reference for all contractors, technicians and other professionals, as well as newcomers to the industry, who need to ensure their work complies with the latest version of the Wiring Regulations.

Used alongside the regulations themselves, this book is the key to safe and efficient electrical installation. The book is also a concise and popular text for the City & Guilds 2381 syllabus. The new edition is updated throughout to match the 2004 version of BS 7671:2001 (incorporating Amendments 1:2002 & 2:2004), and also features extended coverage of Special Locations (such as bathrooms, construction sites and computer / data type installations). There are common misconceptions in the application of the Wiring Regulations in these areas with regard to bonding, voltages, disconnection times and sizes of earthing conductors. Brian Scaddan clarifies the requirements, and outlines the correct procedures to follow (and those to avoid!). Problems are provided, for use as 'self-check' exercises or college assignments.

Brian Scaddan is the Chief Examiner for the City & Guilds 2391 vocational award. He has 30 years' experience in Further Education, and is now Director of Brian Scaddan Associates, Engineering Training Consultants.

* New edition covers additional essential information on Special Locations, clarifying common misconception in the application of Wiring Regulations in these areas

* Fully in line with the 2004 version of BS 7671:2001 (incorporating Amendments 1:2002 & 2:2004), and matched to the City & Guilds 2381 Vocational award
