Biology Sylvia Mader, Michael Windelspecht

THE MADER/WINDELSPECHT STORY...

The twelfth edition of *Biology* is a traditional, comprehensive introductory biology textbook, with coverage from Cell Structure and Function to the Conservation of Biodiversity. The book, which centers on the evolution and diversity of organisms, is appropriate for any one- or two-semester biology course.

Biology, 12th Edition is the epitome of Sylvia Mader's expertise. Its concise, precise writing-style employs lucid language to present the material as succinctly as possible, enabling students—even non-majors—to master the foundational concepts before coming to class. “Before You Begin”, “Following the Themes”, and “Thematic Feature Readings” piece together the three major themes of the text—evolution, nature of science, and biological systems. Students are consistently engaged in these themes, revealing the interconnectedness of the major topics in biology.

Sylvia Mader typifies an icon of science education. Her dedication to her students, coupled with her clear, concise writing-style has benefited the education of thousands of students over the past three decades.

The integration of the text and digital world has been achieved with the addition of Dr. Michael Windelspecht's facility for the development of digital learning assets. For over ten years, Michael served as the Introductory Biology Coordinator at Appalachian State University—a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw-Hill's Connect Plus and LearnSmart media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.

From reader reviews:

Miles Towles:

Reading a e-book can be one of a lot of activity that everyone in the world loves. Do you like reading book so. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new information. When you read a guide you will get new information because book is one of various ways to share the information or their idea. Second, studying a book will make you more imaginative. When you looking at a book especially hype book the author will bring someone to imagine the story how the people do it anything. Third, you are able to share your knowledge to others. When you read this Biology, you may tells your family, friends in addition to soon about yours publication. Your knowledge can inspire the mediocre, make them reading a e-book.

Douglas Barney:

Reading can called brain hangout, why? Because if you find yourself reading a book especially book entitled Biology your brain will drift away trough every dimension, wandering in every aspect that maybe unfamiliar for but surely will become your mind friends. Imaging each and every word written in a reserve then become one contact form conclusion and explanation this maybe you never get before. The Biology giving you one more experience more than blown away the mind but also giving you useful info for your better life in this era. So now let us show you the relaxing pattern this is your body and mind will be pleased when you are finished looking at it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Gregory Rivera:

This Biology is completely new way for you who has attention to look for some information because it relief your hunger associated with. Getting deeper you on it getting knowledge more you know or perhaps you who still having small amount of digest in reading this Biology can be the light food for yourself because the information inside that book is easy to get by simply anyone. These books develop itself in the form which can be reachable by anyone, yes I mean in the e-book type. People who think that in book form make them feel drowsy even dizzy this book is the answer. So there is absolutely no in reading a guide especially this one. You can find actually looking for. It should be here for you actually. So , don't miss it! Just read this e-book style for your better life and also knowledge.

Gloria Taylor:

As we know that book is important thing to add our knowledge for everything. By a publication we can know everything we would like. A book is a range of written, printed, illustrated as well as blank sheet. Every year was exactly added. This book Biology was filled regarding science. Spend your free time to add your knowledge about your technology competence. Some people has distinct feel when they reading a new book. If you know how big advantage of a book, you can really feel enjoy to read a guide. In the modern era like now, many ways to get book that you wanted.
