'Any histopathologist or histopathology department with skin biopsies to report should have a copy of this book.' *Histopathology*

'This book is undoubtedly a real advance for the diagnostic pathologist and I would recommend it to all departments: it will probably become the standard text on pigmented lesions' *The Bulletin of the Royal College of Pathologists*

'I found the book a pleasure to read. It is to be highly recommended for all routine pathological departments; those dealing with only occasional cases will easily find guidance and reassurance; those departments dealing with large numbers will find it helpful in the more unusual case.' *The Journal of Pathology*
