Robbins and Cotran Atlas of Pathology, 1e Edward C. Klatt MD

This new full-color pathology atlas is specifically designed to accompany Robbins and Cotran Pathologic Basis of Disease, 7th Edition. More than 1,200 full-color illustrations richly depict all of the major conditions that are most commonly covered in pathology courses and on the USMLEs. Gross and microscopic pathology images are complemented by full-color conceptual line drawings and corresponding radiologic images.

- Focuses on the major conditions most commonly covered in pathology courses and on the USMLEs.
- Features an organization that corresponds to the organ system chapters in Robbins and Cotran Pathologic Basis of Disease, 7th Edition.
- Takes a consistent approach to explore each condition—beginning with a brief summary of its principal clinical features · laboratory findings · and relevant pathology, followed by high-quality photographs illustrating the normal gross and microscopic appearance of the tissues in that body area as well as the main pathological variants.
- Uses full-color conceptual line diagrams to summarize salient pathologic features.
- Includes relevant radiologic images depicting diseases' clinical appearance.
- Delivers completely different images from those found in Robbins and Cotran Pathologic Basis of Disease, 7th Edition, providing readers with a wealth of additional learning material.
- Displays illustrations at a large size, judiciously labeled to identify key features.
- Offers an attractive and easy-to-read page format, with numerous summary tables and bulleted lists where appropriate.
