The Bare Naked Book Kathy Stinson

Twenty years old and still going strong, *The Bare Naked Book* remains a favorite family introduction to the human body. There is nothing more ordinary and more special than the human body. After all, everybody has one, and for all the parts that are the same each comes in a different shape and size. *The Bare Naked Book* joyfully celebrates this wonderful ordinariness with a matter-of-fact introduction for toddlers to the parts of the body. From hair (dripping, straight, curly, and tangled) to toes (stamping, ticklish, skinny, and squishy) and the private bits in between, Kathy Stinson's playfully simple prose identifies the parts of the body at rest and in motion. Meanwhile, the friendly realism of Heather Collins's illustrations offers a variety of body types in familiar environments, from the bathroom to the beach.
