Globalisation and Sustainable Development: Environmental Agendas (Springer Praxis Books)

Vladimir F. Krapivin

This interdisciplinary book parameterizes the global ecodynamic process. The discussion considers basic global problems of the Nature-Society-System (NSS) dynamics and reviews key problems of ensuring its sustainable development. The book includes an analysis of trends in changing ecological systems and estimates characteristics of current global ecodynamics. The authors propose a new approach to NSS numerical modelling and demonstrate the results of modelling the dynamics of this system's characteristics.
